

Fig. 5 is a schematic diagram of a circular device 10. The interior of the circle is filled with diagonal hatching. Three circular components, labeled 30, 32, and 36, are positioned within the device. Each of these components contains a smaller circle, labeled 40. Arrows indicate a flow or interaction between these components and the outer boundary 12. Labels include 10, 12, 30, 32, 36, 40, 42, 48, 48a, 48b, 48c, 56, 56a, 56b, 56c, 58, 58a, 58b, 58c, 60, 60a, 60b, 60c, and 32a.
